Email: bhartiritik527@gmail.com Mobile: +91 6207867842

Objective

Aspiring Software Engineer with a solid foundation in computer science and full-stack development. Inspired about building scalable solutions and solving real-world challenges while continuously learning emerging technologies.

Technical Skills

Programming Languages: C++, JavaScript, Python

Web Development: React.js, Next.js, HTML5, CSS, Tailwind CSS, Framer Motion

Backend Technologies: Node.js, Express.js

Databases: MongoDB, MySQL

Cloud & DevOps: AWS, Firebase, Vercel, Docker

Version Control: Git, GitHub

Soft Skills: Algorithmic Thinking, Team Collaboration, Effective Communication

Education

Dronacharya Group of Institutions, Greater Noida, India

B.Tech in CSE — sgpa : 7

Nov 2022 - Aug 2026

M.K. DAV Public School, Daltonganj, India

12th (CBSE - PCM)

Apr 2021 - Mar 2022

Projects

Django-Movies Search Web ([LINK](#))

Feb 2025 - Present

- Developed a responsive Movie Search Application using **HTML, CSS, and JavaScript**, allowing users to instantly query and discover movie titles with a seamless user interface.
- Integrated an external Movie API (e.g., OMDB/TMDB) using **asynchronous JavaScript (Fetch API)** to retrieve real-time metadata, ratings, and direct streaming links without page reloads.
- Designed a dynamic result rendering system that updates the DOM efficiently, optimizing the user experience for fast content discovery and mobile responsiveness.

EazyTripy ([LINK](#))

Dec 2024 - Feb 2025

- Developed a comprehensive Travel Itinerary Planner using **React.js/Next.js** and **Node.js**, allowing users to generate custom schedules based on **budget, time constraints, and crowd levels**.
- Integrated **Google Maps API** for interactive route visualization and **Weather API** to filter destinations based on real-time climate conditions, ensuring optimal travel planning.
- Engineered an intelligent algorithm that analyzes peak "rush" hours and location data to optimize daily itineraries, reducing travel friction and enhancing time management.
- Implemented a document generation feature that exports finalized itineraries into **offline-accessible PDFs**, enabling users to access plans and maps without internet connectivity during travel.

Personal Portfolio Website ([LINK](#))

Sep 2024 - Oct 2024

- Created an interactive portfolio website to exhibit projects, skills, and experience, increasing personal branding visibility by 80%.
 - Implemented a sleek, responsive UI using Next.js and Tailwind CSS, enhancing accessibility across mobile and desktop platforms.
 - Integrated animations with Framer Motion, resulting in a 35% boost in visitor engagement and reducing bounce rates by 25%.
-

Certifications & Extra-Curricular Activities

- HTML - CSS (OpenWeaver) ([CERTIFICATE](#)) – Mar 2025
- Cybersecurity (CISCO) ([CERTIFICATE](#)) – Feb 2024
- C Programming Certification (IIT Bombay) ([CERTIFICATE](#)) – Jan 2024
- Engineered a full-stack application utilizing React, Node.js, and PostgreSQL, automating invoice generation and reducing manual processing time by 70
